

## QUALITY POLICY STATEMENT

The Management of Oasis Engineering realises that success in the future is dependant on achieving & maintaining the following:

- A work ethic based upon Safety First.
- The use of the process approach and risk-based thinking (Desirable Effects' & Undesirable Effects' DE's & UDE's)
- Providing all employees with the training tools and environment to perform their job in the most efficient manner.
- Providing the necessary resources and personal required to satisfy all applicable requirements and for the successful implementation and continual improvement of our ISO 9001 Quality Management System.

By successfully promoting this quality policy, we can better achieve the company's goals & objectives which are:

- **Profitability**  
We aim to be consistently profitable providing good returns to our shareholders.
- **Respectfulness**  
We treat customers, suppliers, staff and family with respect.
- **Motivation and Reward**  
We encourage, train, motivate, develop, recognise, and reward all staff to achieve their highest potential.
- **Customer Relationships**  
We will develop close relationships with our customers by being open, honest and adaptable to solving their needs and requirements.
- **Delivery & Quality**  
We will strive to satisfy customers by delivering in full, on time, and within Specification (DIFOTIS).
- **Continuous Improvement and Innovation**  
We add value to customers by continuously improving everything we do every day, and by developing quality products to last.
